Historical certificate template

Publication notice: 2 November 2026

This blank sample does not certify any person, organization or implementation.
The following pages reproduce a historical blank template for reference.
Every source page is marked SAMPLE / NOT VALID. The historical text
does not describe the current certification scheme or VSO operations.

VSO is operated by VeritasChain Co., Ltd. Historical wording such as
"independent standards body", "hereby certifies" or "PASS" must not be
read as a current assertion, an issued certificate or a legal conclusion.

Current specifications and disclosures:
https://github.com/veritaschain/vcp-spec
https://veritaschain.org/certified/cab/

The original editable file is removed from the current repository tree.
Earlier Git commits, clones and downloaded copies may still contain it.
This publication change does not rewrite Git history.
この資料は歴史的な参照用です。現在の認証書・審査書類・契約書として
使用できません。本文の独立性や適合性に関する記述は当時の文言です。

VeritasChain Standards Organization (VSO)

Encoding Trust in the Algorithmic Age

CERTIFICATE OF COMPLIANCE

VeritasChain Certified (VC-Certified) - Silver Tier

Certification Details:

Certificate ID	VC-S-EA-[XXXXXX]
Status	Provisional (Early Adopter Program)
VCP Specification	v1.0
Compliance Tier	Silver
Issue Date	[YYYY-MM-DD]
Valid Until	[YYYY-MM-DD] (1 year from Issue Date)

ISSUED TO:

[Adopter Entity Name or "Anonymous Early Adopter #1"]

SCOPE OF CERTIFICATION:

The VeritasChain Standards Organization (VSO) hereby certifies that the algorithmic trading system utilized by the Adopter has been assessed and found to be in conformance with the technical requirements of the VCP v1.0 Silver Tier Specification.

This certification applies to the Pre-Production / Internal Evaluation environment.

Validated Modules and Conformance:

The following VCP modules were successfully implemented and validated:

[☑] VCP-CORE: Data Integrity (UUIDv7/v4, RFC 8785 Canonical JSON, SHA-256 Hash Chain)
[☑] VCP-TRADE: Event Logging (ORD/ACK/EXE/REJ/CXL Lifecycle)
[☑] VCP-SECURITY: Delegated Signing (Ed25519), 24h Merkle Batching (RFC 6962) & Anchoring
[☑] VCP-TIME: Millisecond Precision (BEST_EFFORT Synchronization)

Assessment Summary: **PASS**
